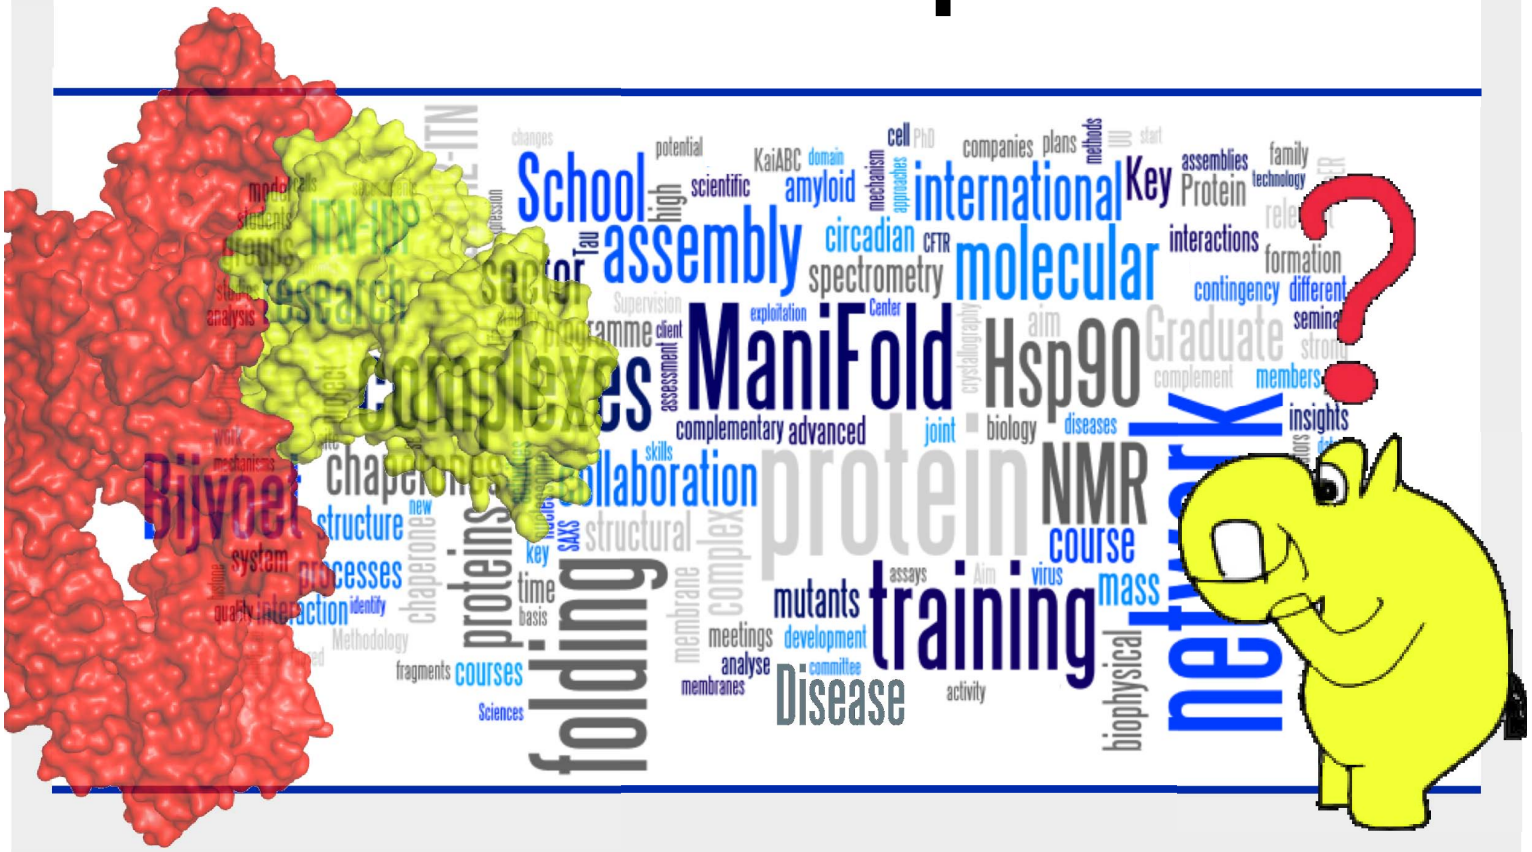
11 PhD student positions



Manipulating folding, assembly and disassembly of protein complexes - *from molecule to disease*

Marie-Curie Innovative Doctoral Programme “ManiFold”
Bijvoet Center for Biomolecular Research
Utrecht University, Utrecht, The Netherlands

Applications now open: www.ManiFold-itn.nl

ManiFold looks for creative and bright students for projects in the Bijvoet research groups of Rolf Boelens, Ineke Braakman, Piet Gros, Albert Heck, Bert Janssen, Antoinette Killian and Stefan Rüdiger (coordinator).

The project is funded by the “Innovative Doctoral Programme” (IDP) scheme Marie-Curie Actions of the EU, which aims to support the best Graduate Schools in Europe. In the Life Sciences, ManiFold is at present the only IDP in Europe. ManiFold projects will start in autumn 2012.

The Bijvoet Center of Utrecht University provides an interdisciplinary environment and excellent infrastructure, including its European NMR Facility the Netherlands Proteomics Center. In 2012, the Bijvoet Center received National Road Map grants by NWO and the Dutch government to support these facilities with additional €32 Mio.
